NIC #13177
Packet Radio Temporary Note #2

Susan Lee (SRI-NIC)
20-DEC-72

Procedures for Distributing Packet Radio Temporary Notes

The Network Information Center (NIC) provides document distribution service for the ARPA Packet Radio Group. The NIC will reproduce documents submitted by members of the group and distribute copies to all members.

Preparation

Each document should have on it a Packet Radio Temporary Note number, a NIC number, the author's name and affiliation, the date, and a title. (See above.) These items are necessary for proper cataloging of the note.

To obtain NIC and Packet Radio Temporary Note numbers call NIC at (415) 329-0740, or use your Enterprise number if you have one. If calling is not practical, leave room on the original so that the NIC can type in the numbers.

If you have online access and can prepare the document using NLS, put the document into a file and send a Journal message to Susan Lee at NIC. The file will be given a heading and printing directives as necessary, and a master made for reproduction and distribution.

Distribution

Send the original, a good copy, or a Journal message about the file, to NIC:

ARPA Network Information Center
c/o Ms. Susan Lee
Augmentation Research Center
Stanford Research Institute
Menlo Park, California 94025

NIC will distribute copies to all Packet Radio Group members.

Names to be added to the distibution list should be submitted to Dr. Robert E. Kahn (ARPA)-IPT).
